COVID-19 Procedures

The Treehouse is licensed to operate as Emergency Childcare and is following the Early Learning Division's Health and Safety Guidelines and Exclusion Summary regarding staff and student illness.

Each classroom has windows that will be open on temperate days and have HEPA Air Purifiers as well.

Below you can also view our Community Guidelines that we ask each of our families to agree to in order to keep our community safe:

I realize that The Treehouse, all of our enrolled families and staff are now in your "isolation network". In order to respect all involved we ask that you do the following:

1. *Follow all Oregon State COVID-19 guidelines, re-opening procedures, travel advisories and freezes.*
2. *Wear face masks in public.*
3. *Practice consistent hand washing and sanitizing.*
4. *Social distance yourself 6ft from others in public and from those that are not in your immediate "isolation network".*
5. *Keep your isolation network as small as possible.*
6. *Please avoid indoor gatherings and public spaces as much as possible.*
7. *When Multnomah and Clackamas County graduate into the next phase of reopening, you do so mindfully and slowly. Our school will be following Clackamas Counties guidelines, as we reside in that county. However, many families commute from Multnomah, so we ask that they follow their county guidelines as well.*
8. *Adhere to Treehouse's sickness policy revised for COVID-19.*
9. *Inform Treehouse right away if your child, family member, or someone in your "isolation network" came in contact with someone diagnosed with COVID-19, so we can contact health care professionals to help assess the situation.*
